KHEN SABENIANO

WEB AND MOBILE APPLICATION DEVELOPER

📞 +63 939-287-6393 ✉ khensabeniano@gmail.com 🏠 Cainta, Rizal 🔗 https://khenspersonal.projectworld.online/

Information Technology student specializing in Web and Mobile Application Development. With knowledge in web and mobile app development, and experience in building websites and mobile applications. Eager to learn new technologies and continuously improve skills.

EXPERIENCE

Web Developer
Developed multiple web-based applications, including all final academic projects, and applied new skills by coding projects while learning, ensuring practical hands-on experience and improved development expertise.

Android App developer
Developed Android applications using Java through academic projects and personal hobbies, gaining hands-on experience in mobile development.

Real work Experience
Developed a system connecting business owners with clients as part of a final project, including designing and building "Caleb's Kitchen, " an Android food delivery application. Gained hands-on experience in full app development, implementing client-focused solutions and real-world project requirements.

Full Stack Developer (Freelance)
Built and delivered multiple web and Android applications for freelance clients, managing full-stack development and ensuring each project met the client's needs.
